

EMC Corporation

Where information lives

EMC Corporation's mission is to help organizations of all sizes get the most value from their information and their relationships with our company.

To accomplish this mission, we need the best and most innovative minds available.

When information comes together, your possibilities are limitless.

And that means we need you.

At EMC you'll have the opportunity to turn your ideas, creative problem-solving abilities, and initiative into a career with the world's information management and storage leader. EMC people are known for their passion for learning, innovating, and getting results. It's our high standards—and our obsession for always finding a better way—that best defines the EMC work environment. Discover your opportunity at EMC.

Here's what Princeton Review interviewees say about working at EMC:

- **On their contribution:** "What was very clear...was the sense of being a part of the company's vision and the feeling that we will be considered as important contributors to its success."
- **On learning the ropes:** Many training programs here "entail a mentoring/shadowing phase...This has provided a great opportunity to get important questions answered while gaining familiarity with the available software, tools, etc."
- **On getting hired:** "The most impressive thing was how fast they moved. They made me a job offer on the same day of the third round. They demonstrated a 'sense of urgency', which is big in the culture here."
- **On their peers:** Co-workers are described as "intelligent, conscientious individuals" who "range from the highly experienced...to fresh graduates. Everyone has something to share and contribute. The work culture is elite, competitive, and yet fun."

EMC is in the business of helping customers manage, store, and protect their information. Every day, organizations of all kinds and sizes create and collect huge amounts of data. But managing this data efficiently is a major challenge. We help these organizations safely manage and store their valuable information, access it instantly, and protect it for as long as they need it.

Opportunities at EMC

Entry-level positions and associate programs

EMC is currently hiring across a wide range of career paths—including hardware and software engineering, manufacturing, technical support, human resources, sales, marketing, and customer support.

Openings are at corporate headquarters in Hopkinton, Massachusetts and the surrounding area; our software division in Pleasanton, California; research and development facilities in North Carolina—as well as at field sales offices, customer support centers, and other R&D facilities throughout the U.S. and in more than 50 countries including: Ireland, China, India, Israel, Japan, and Australia.

Associate programs EMC also hires graduates into our Associate Programs for sales, customer service, education services, and technology solutions. These accelerated training programs help develop the knowledge and leadership qualities for which EMC is renowned—and help you take charge of your career path.

Rotational programs EMC Rotational Programs offer a fast-track career program for high-potential graduates. Participants are selected based on academic achievement, proven leadership potential, demonstrated commitment to success, and aptitude in program domains. We offer rotational programs in human resources, marketing, finance, and engineering.

Paid co-op positions and internships EMC also offers paid co-op and internship programs where you will gain valuable, practical experience with an industry leader. Co-op and internship opportunities are focused on technology, sales, and other business disciplines.

Take the Next Step

If you're looking for the pace, influence, creativity, and strength of working with a visionary organization, EMC is the place to be. For more information on career opportunities with EMC, visit our website at www.EMC.com/college.

EMC is committed to diversity in our workforce. Our strategy is to recruit, retain, and develop the most talented workforce in the industry, without regard to race, religion, age, gender, national origin, sexual orientation, disability, or veteran or citizenship status. Diversity is not only integral to who we are as a company; it is a business imperative for us.
