

SAP Archiving Packaged Solution

A simple and compliant turnkey solution

Benefits of SAP archiving with EMC Centera

SAP[®] provides industry-leading software solutions to thousands of companies worldwide. But these highly integrated, collaborative solutions generate large quantities of documents, reports, and transactional data daily. If not managed properly, this large volume of data can offset some of the numerous operational and competitive business advantages SAP solutions provide. EMC offers a single-vendor turnkey solution that allows your company to rapidly and cost effectively address the challenges of SAP data growth.

The turnkey SAP archiving solution includes software and services and is now available for 40 percent off the regular price. The package consists of:

- **EMC[®] Documentum[®] Archive Services for SAP:** Complete, certified, high-capacity software services for archiving and retrieving all SAP information—ADK/XML files, printlist reports, and business documents
- **Packaged professional services:** Setup, installation, and configuration of one production SAP solution in a fixed timeframe

Optional EMC hardware available:

- **EMC Centera[®]:** Industry-leading content-addressed storage device for archiving content for retention purposes

High-availability and disaster recovery solution also available. Several customers have opted for EMC as a replacement of their current SAP archiving system. Please ask for referrals.

To learn more about the EMC SAP Archiving Turnkey Solution, contact your local EMC representative today at Content_Management_Info@emc.com.

Ask yourself:

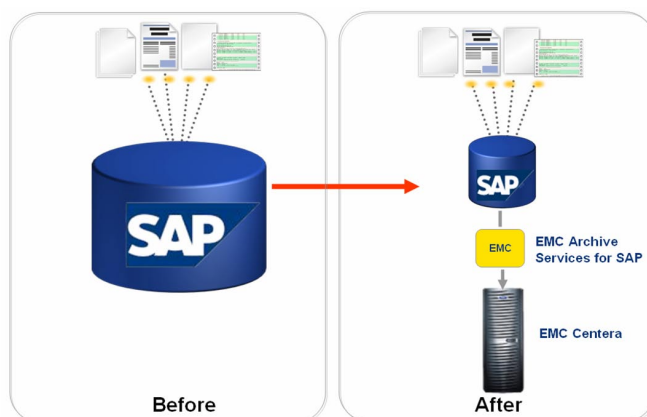

- Are you satisfied with your current SAP archiving solution?
- Are your users happy with the SAP system's performance?
- Is your backup window growing too large?
- Is your current SAP data archive compliant?

Why SAP archiving?

- Improved application performance
- Faster production backups
- Better storage TCO
- Compliant, long-term storage for all SAP content

Why EMC for SAP archiving?

- SAP Archivelink[™] certified
- Storage integration via EMC Centera
- Single-vendor, worldwide customer support
- Packaged consulting services
- SAP certified
