Financial

Financial Use Cases
FINANCIAL

CORPORATE OFFICES AND WORK DESKS
Work desks are set up with fixed computing systems and dual monitors. Fixed computing systems provide greater security while dual monitors increase productivity.

TRADING CENTERS
Trading computer systems are mostly equipped with four large screen monitors with high performance desktops.

CONFERENCE ROOMS
Conference rooms have a projector or a large screen TV, web camera, audio I/O and a micro PC for smooth video conferencing.

FINANCIAL CENTERS / TELLERS
Financial centers use fixed computing systems, like all-in-ones, for security in an aesthetically pleasing, space-saving design that can blend into a consumer-facing environment.

DELL ProDeploy Plus

Deploy PCs with greater speed and less effort.

35%
Reduce deployment time by up to 35%.

$620
Reduce deployment cost per PC by up to $620.

EXPERTS

Best practices acquired from years of experience yield unprecedented efficiency.

- Save up to 88% of the time it takes to create a cross-platform image
- Up to 35% faster deployments
- 46% less disruption to end-users

INSIGHTS

Gain insights from teams who do this every day.

- Over 11 million systems configured in the last fiscal year
- 54,600 units imaged globally every week
- Project documentation with knowledge transfer

EASE

Effortlessly deploy PCs by outsourcing to us. We can handle the tasks that divert your attention away from your highest priorities.

- Flexibility to select the level of service that matches your IT staff outsourcing needs
- Deployments can be performed after hours or on weekends
- Available in 70 countries

1Source: Based on May 2016 Principled Technologies Report commissioned by Dell EMC. Testing results extrapolated from a 10-system deployment to project time savings for larger deployment compared to in-house manual deployment. Actual results will vary.
