

OPTIMIZE DATA PROTECTION FOR DELL EMC CONVERGED INFRASTRUCTURE

All data and applications need to be protected regardless of where they live, against whatever might happen, and at the right service level based on business value.

Dell EMC data protection for converged infrastructure offers end-to-end protection for VxBlock™ and VxRack™ environments, including backup and recovery, continuous data protection for any point-in-time recovery, continuous availability, proactive monitoring and analysis, public and private cloud targets for long term retention, search capabilities and more.

DELL EMC DATA PROTECTION FOR VXBLOCK & VXRACK: ADVANTAGES

SIMPLE

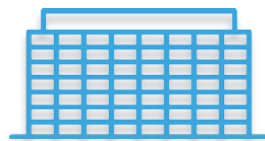

Reduce Administrative Burden

- Achieve the precise level of data protection needed
- Simplify deployment and management of infrastructure and data
- Factory integrated and validated by Dell EMC prior to delivery
- One vendor for complete data protection

COMPLETE

End-to-end Protection

- Comprehensive set of data protection solutions
- Ensures optimum functionality and performance in any virtualized or cloud environment

FLEXIBLE

Drive Specific Business Outcomes

- Protection that aligns with your business objectives
- The right protection for each application
- Manage risk with highly efficient & cost effective solution options

It's also PROVEN

Dell EMC solutions are #1 in the data protection software and storage market¹. More people choose – and trust – Dell EMC data protection to protect their data than anyone else.

DELL EMC DATA PROTECTION FOR VXBLOCK AND VXRACK

	VXBLOCK	VXRACK	DELL EMC DATA PROTECTION BENEFITS & VALUE
Backup + Protection Storage	✓	✓	<p>Fast</p> <ul style="list-style-type: none"> Up to 50% reduction in backup time <p>Efficient</p> <ul style="list-style-type: none"> Average of 36x reduction in backup storage utilization Up to 99% reduction in network utilization <p>Comprehensive</p> <ul style="list-style-type: none"> Unified data protection management with real-time analytics Application consistency Software-only option Converged data protection appliance option
Continuous Data Protection	✓	✓	<ul style="list-style-type: none"> Any point-in-time recovery Consistent recovery of inter-dependent applications Integrated vCenter management and orchestration Automated provisioning Software-only option
Data Mobility & Continuous Availability	✓		<ul style="list-style-type: none"> Eliminate planned and unplanned application outages Migrate and relocate VMs, applications, and data non-disruptively
