

CANADIAN COLLEGE GETS HIGH MARKS FOR BACKUP EFFICIENCY

Collège Boréal, a French-language college of applied arts and technology with 42 campuses, dramatically shrinks backup data, slashes backup times and captures cost savings

COMPANY: Collège Boréal
INDUSTRY: Higher education
COUNTRY: North America

CHALLENGE

Rapid virtualization led to increased data **backup times** and backup **administrative costs**

SOLUTION

Dell EMC Integrated Data Protection Appliance (IDPA)

BENEFITS

Data deduplication reduces 20.5 terabytes to 95.7 gigabytes

Slashes backup time from 5 hours to 2

reduction in data center rack units for backup

Decreases power consumption and related costs

Deployed converged solution in 2½ days versus at least 3 weeks

“IDPA is an enterprise-class solution that provides one stop for easy-to-use, reliable and high-speed backup. That’s invaluable to us.”

Benoit Bonin - IT Director, Collège Boréal
