

# HCI is now mainstream

Customers have **adopted** or are considering HCI

HCI deployments are in **core data center**

Customers run **primary infrastructure** and mixed workloads

The best in hyper-converged just got **better**

## Dell EMC HCI Appliances Built on PowerEdge 14th Generation Servers

### Powerful

Up to **2x** more IOPS<sup>1</sup>,  
Over **2x** faster response times<sup>1</sup>

### Purposeful

**>1 million** more configurations,  
**3x** more VDI users

### Polished

Over **9x** more predictable response times<sup>1</sup>,  
Sustained response times under **1ms**<sup>1</sup>

**150** custom requirements for Dell EMC HCI built into next generation PowerEdge servers

**#1** World's most configurable HCI appliances for maximum flexibility<sup>2</sup>
