

DOCUMENTUM APXCELERATOR

Deliver efficiencies with straight-through accounts payable processing

ESSENTIALS

Customer Benefits

- Complete Capture-to-Pay solution
- Reduced invoice processing time
- Enhanced visibility and control
- Reduced invoice processing costs
- Flexible ERP integration
- Configurable AP business processes
- Full and verifiable audit trails
- Design and tested by EMC

AP Use Cases

- Approval routing
- 2-Way and 3-Way PO matching
- Exception identification and resolution
- Reporting
- Multiple ERP connectivity

OVERVIEW

EMC understands the challenges that companies face operating accounts payable – whether on a regional or global scale. Global organizations may face varying regional taxation and business policy requirements, distributed workforces, process integration with varying disparate commercial ERP systems, and high volumes of invoice throughout. Regional organizations must deliver efficiencies in payables processing often times utilizing limited resources.

EMC® Documentum® APxCelerator® delivers maximum automation – from invoice ingestion (scan, fax, e-mail, etc.) through posting to any ERP system, including Oracle E-Business Suite, Oracle PeopleSoft, JD Edwards EnterpriseOne, SAP, McKesson, and others. APxCelerator provides immediate payables financial and process visibility. It provides objective, insightful data for process improvement—allowing a business to measurably drive out exceptions and hold from the AP process from day one.

APxCelerator is purpose-built specifically for the EMC Documentum platform, and is highly optimized to leverage rich imaging and workflow technology. APxCelerator adds a leading practice AP business solution capability to Documentum xCP and Captiva Capture's intelligent invoice capture platform. APxCelerator provides flexible configuration without programming, and can be rapidly deployed to address a company's unique processes and cultural requirements. APxCelerator yields a high performance, feature rich, and flexible AP automation solution; delivering all of the performance, scalability, and supportability of a true enterprise content management platform, all developed and supported by a single vendor – EMC.

USE CASES

APxCelerator supports a variety of AP automation use cases, including:

- Complete Capture-to-Pay automation
- Powerful invoice approval routing engine
- 2-Way and 3-Way automatic PO matching
- Invoice exception identification and resolution
- Flexible invoice processing by allowing configurable workflow
- Function-specific usage, allowing your existing efficient processes to continue
- Multiple ERP connectivity

BENEFITS

EMC Documentum APxCelerator accounts payable automation solution streamlines accounts payable processing end-to-end, from invoice ingestion to submittal of a perfected transaction to any ERP system for payment. Built on EMC Documentum and EMC Captiva Capture software, APxCelerator delivers:

- Enhanced visibility and control
- Reduced invoice processing time
- Increased ROI through lower invoice cycle times

REDEFINE

EMC²

- Robust and flexible ERP integration
- Immediate financial visibility and insight

STRAIGHT-THROUGH PROCESSING

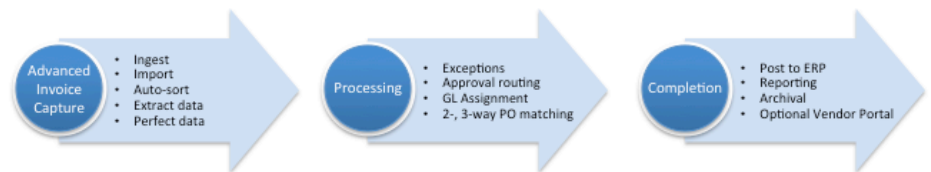

Straight-through processing can be as easy as 1-2-3:

Capturing: Advanced AP-centric capture process ingests and resolves multiple invoice sources. OCR technologies immediately find and extract data such as PO numbers, invoice dates, total amounts, line item data, and more.

Processing: Robust invoice processing quickly identifies and validates exceptions, automatically matching to POs, and routing invoices for approvals.

Completion: Universally integrates to any ERP system including SAP, Oracle, PeopleSoft, and JD Edwards.

APxCelerator delivers web-based business process automation with real-time reports and dashboards for analytical and operational visibility into every step of the process. It optimizes your AP to save time and money to your business advantage.

NEXT STEPS

ECD Services is offering an AP process review and demonstration of APxCelerator. If you would like to learn more about APxCelerator, please contact your local EMC Solution Principal, Account Manager or contact us directly at ECD.WWCSG.INFO@emc.com.
