DELL EMC NHC SOLUTION ARCHITECT ADVISORY
For Pivotal Cloud Foundry

ESSENTIALS

- Accelerate success with Pivotal Cloud Foundry
- Trained, knowledgeable resources available on demand
- Skills transfer to your staff

Business Challenges

Organizations often need additional assistance with deploying or operationalizing Pivotal Cloud Foundry on Native Hybrid Cloud due to a lack of resources, in-house knowledge or familiarity with best practices when moving to cloud platforms.

Service Description

The Native Hybrid Cloud (NHC) Solution Architect Advisory Services for Pivotal Cloud Foundry are designed to accelerate your success with Pivotal Cloud Foundry by pairing our experts with a partner’s delivery team to plan, implement, customize, use, and scale the platform to meet a customer’s needs. By working together we improve project outcomes and maximize on-the-job skills enablement.

An expert Pivotal Solution Architect will work on a prioritized backlog with designated project anchors from your organization during a period of at least two (2) weeks. Actual work is tailored against the customer’s objectives and actively prioritized by your project’s anchor to ensure investments align to what’s most important.

Depending on the scope, Pivotal Cloud Foundry Solution Architect Advisory Services can be used over a minimum two-week engagement. Solution Architects can be purchased in two-week increments (i.e., purchase three two-week increments for a six-week engagement) and are intended to serve as part of a delivery team.

Summary of Benefits

NHC Solution Architect Advisory Services for Pivotal Cloud Foundry represents an ideal solution for organizations looking for a Pivotal representative to assist with deploying or operationalizing Pivotal Cloud Foundry on Native Hybrid Cloud while enabling your people with new skills. This service helps ensure that architecture and your implementation roadmap are aligned with Pivotal best practices.
